

# Central Coast Honda

## All new Honda CITY. Check it out now.

High performance. Heaps of space. And awesome iPod sound. This car hots things up the way you like it.

In one incredibly well designed compact sedan, Honda has packed everything you want. Check out the amped-up grill and the slit headlights that wrap all the way around. This car looks tight and then blows you away inside with sports style and stacks of room.

Your car. Your music. Your iPod.

CITY knows how much your music matters, so iPod connectivity and dash controls let you mix it up. And with four optimally-placed speakers, CITY's sound system makes even rush hour traffic a place to leave the crowd behind.

Escape velocity. And serious safety.

CITY's 1.5 litre i-VTEC engine pumps out more power than any other car in its class. 5-speed manual or 5-speed automatic? You make the call. CITY is the only 5-speed automatic light sedan. And the CITY looks after you with safety features like Antilock Brakes with Electronic Brakeforce Distribution and front, side and curtain airbags so you're protected all around.

What about your stuff?

This is amazing. CITY's boot has more litres of cargo space than a Holden Commodore.
